## **DETAILED ACTION**

## Allowable Subject Matter

1. Claims 1-53 have been allowed.

## Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior arts of record issued to Goetz, Ritchie and Pocock either alone or in combination fails to teach or suggest each and every feature of claims 1, 14, 27, 36 and 46 for an apparatus for transmitting data from a sender to a receiver across a network and its corresponding method and its corresponding computer readable medium storing instructions adapted to be executed on a processor for steps of: to display, at a receiver, received data; analyze, by the receiver, parameters associated with the quality of the displayed data; formulate, by the receiver and based on the analysis earlier, a media-parameter suggestion fro an encoder to alter the characteristics of data to be sent to the receiver; and send, from the receiver, the formulated suggestion. The present invention with amended claim languages clearly indicates that the receiver that performs the analysis of parameters associated with the quality of the displayed data after the data is displayed at the receiver. Goetz, Ritchie and Pocock do not teach, suggest or inherently suggest this feature.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
